PROMO CODES

Promo codes in online casinos are special codes that players can use to get bonuses or other benefits. These codes might give you free spins or bonus money. They are often part of a casino's marketing efforts to attract new players or reward existing ones.

Wagering Requirement and Other Conditions

Every casino bonus has at least some terms and conditions. The player must comply with all of these conditions. Otherwise, the casino will remove all the bonuses and all the winning generated by the bonus money.

Most of the casinos pin terms and conditions directly to the bonus, so you do not have to look for it. According to our players' complaints research, these are the most problematic parts:

Wagering Requirements

Before withdrawing, you need to bet a certain amount of money. The amount is calculated as the multiple of the initial bonus. For example, if the wagering requirements are 20x bonus and your bonus €60, you have to wager 60x20=€1200 before withdrawal.

Maximum Bet

When the player fulfils the wagering requirements, there is a maximum allowed bet. It is usually about €/ \$ 5.

Multiple accounts

Some players make more accounts in one casino to get the bonus multiple times. All casinos, no exceptions, see that as a violation and bonus abuse. There is a zero-tolerance policy on this one. Most of the bonuses are redeemable only once.
